

## 2022 Oklahoma State Pecan Show

*Becky Carroll*

*Associate Extension Specialist*

The 2022 pecan harvest is quickly approaching, shucks are splitting, orchard floors are being groomed, and equipment is being serviced. Even with the severe drought conditions, pecan quality looks good in many areas. Pecans may be slightly smaller due to the lack of moisture during sizing but hopefully they will be well-filled. Don't forget to set aside some of your best pecans to enter in the Oklahoma State Pecan Show.

*If you'd like to learn more about the Oklahoma State Pecan show and how to submit a winning sample, the Pecan Topics for November 2020 webinar has a presentation that you can view at - <https://www.youtube.com/watch?v=qaI7NtN0Ab8>*

If no county/area show is available, growers may enter pecans directly by sending samples to:

*Cimarron Valley Research Station*

*Attn: Becky Carroll*

*10820 South Jardot*

*Perkins, OK 74059*

### **Samples should arrive by January 27, 2023.**

Samples should be entered in a **sealed** plastic or paper bag. Label the bag on the outside and place a label inside the bag. Information should include exhibitors name and address, county, and type of pecan entered. Be sure to follow the guidelines that are listed below before sending entries.

**A few helpful hints:** Take the time to select pecans that are all the same cultivar, or same size and shape natives – *don't send mixed pecans*. Select uniform, clean, uncracked pecans. Presentation can make the difference between two very similar samples. Make sure to send 2 pounds of pecans in a labeled and sealed bag.
